

## RECIRCULATING FLUSH

This self contained, flush and wash capable unit is perfect for events that require added features without much added cost.

*"Your customers will definitely appreciate the extra features."*

The Recirculating Flush is adequate for small upscale events or wherever hand washing capabilities are needed such as any event serving food. Foot or pump operated controls maintain a sanitary environment inside the unit.

A standard service is performed once a week. Trained technicians clean the washroom, remove the waste and resupply the unit as required. Servicing can be scheduled more or less frequently to meet specific needs. All servicing performed on site is documented inside the unit for quality control. 24/7 emergency service is available.
