

VIP-1M

Our VIP-1M is perfect for all seasons and events both in appearance and amenities offered. The exterior is made of ultra durable MonoPan® providing a sleek and easy to maintain appearance.

"Whether used for a seasonal rental or a construction site, your users will appreciate this unit."

The interior is finished with stainless steel half walls, and features all ceramic utilities including urinal. Hot and cold running water and full vanity are also included. To regulate temperature the unit is insulated and includes a heater while a built-in exhaust fan keeps the inside air cooled during warmer seasons. Lighting accents both inside and outside provide an inviting sensory experience.

A standard service is performed once a week. Trained technicians clean the washroom, remove the waste and resupply the unit as required. Servicing can be scheduled more or less frequently to meet specific needs. All servicing performed on site is documented inside the unit for quality control. 24/7 emergency service is available.
