

VIP-2M

Versatility and comfort are two highlights of the VIP-2M Washroom Trailer.

The versatility comes in the form of two large private rooms built for high capacity.

"Whether used for a special event or a construction site, your users will appreciate this unit."

The comfort is provided by upscale amenities which include a ceramic toilet, sink and urinal (on men's side), a soap dispenser, mirror and coat hook among others. The exterior is made of ultra-durable MonoPan® providing a sleek and easy to maintain appearance.

To regulate temperature the unit is insulated and includes a heater while a built-in exhaust fan keeps the inside air cooled during warmer seasons. Lighting accents both inside and outside provide an inviting sensory experience.

A standard service is performed once a week. Trained technicians clean the washroom, remove the waste and resupply the unit as required. Servicing can be scheduled more or less frequently to meet specific needs. All servicing performed on site is documented inside the unit for quality control. 24/7 emergency service is available.
